Scalefusion | Device & Endpoint Management Software

Product Presentation

Effortless Mobile Device and Endpoint

Management that will Delight your IT Team

Hyper–Connected World is the Future.

Phone Tablet Laptop & Desktop

Rugged Device Point of Sale Custom Device

- Remote working, telecommuting and increasing frontline workforce has led to a disruption is the conventional means of organizational operations.

- Education is transforming with virtual classrooms and distance learning.

- We now live in a world of Mobile devices, laptops and desktops and diverse endpoints.

- Mobility is no longer an option, but a need.

Scalefusion | Device & Endpoint Management Software

Are You Ready To Take The Big Leap?

- To accommodate the evolving needs of mobility in a workplace?

- To secure your endpoints across geographies?

- To facilitate hurdle-free working for your employees?

- To enable remote education?

Scalefusion | Device & Endpoint Management Software
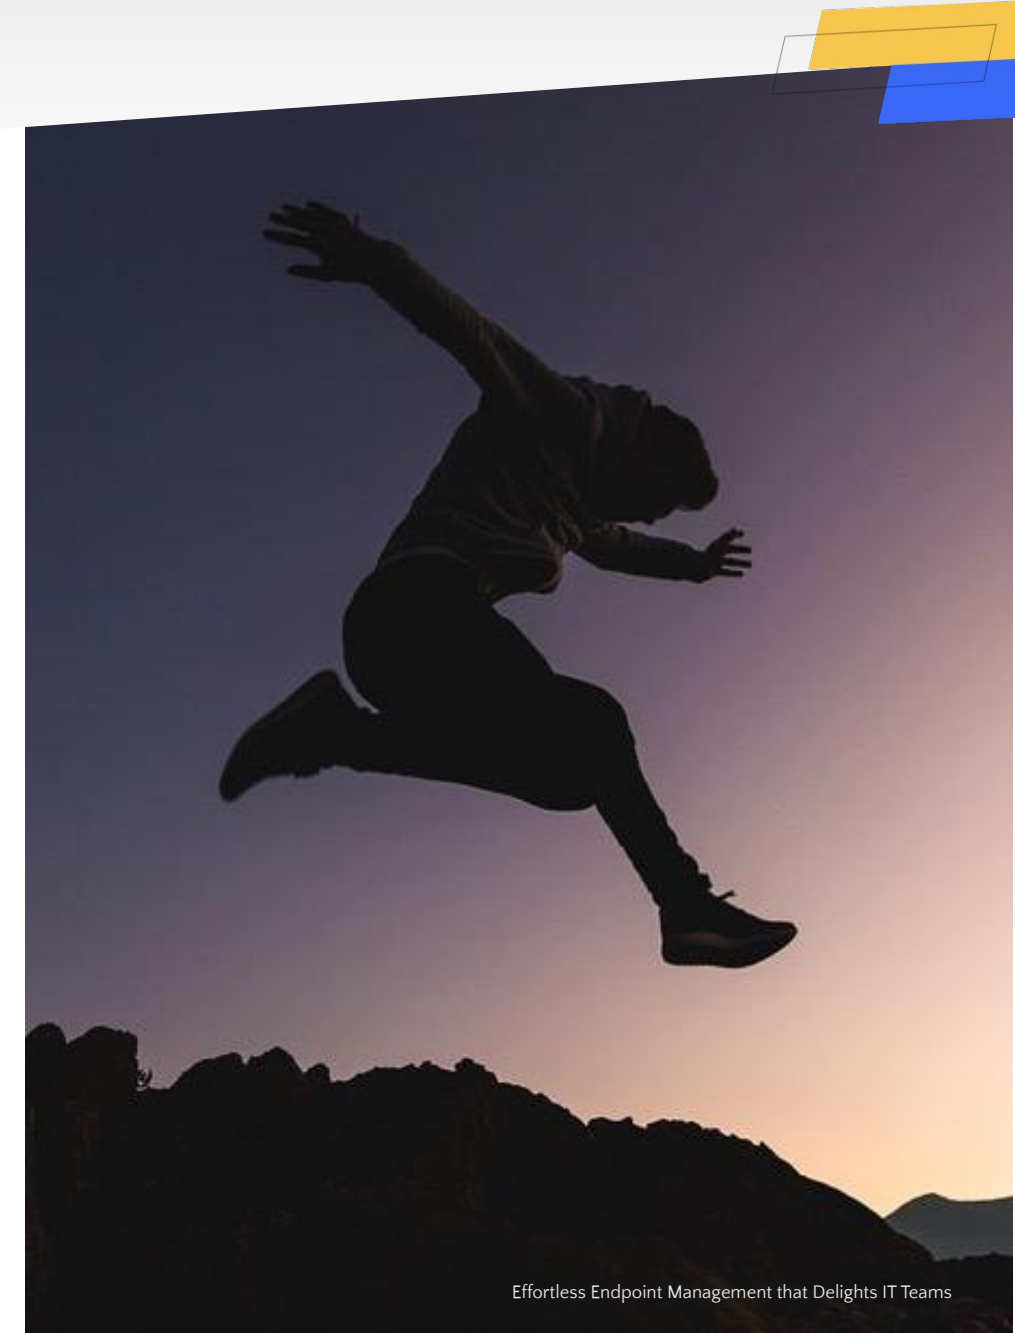

An MDM Solution Designed for All Platforms. Made for IT Admins

A secured, intuitive and scalable MDM solution that helps organization of any size to secure and manage endpoints including smartphones, tablets, laptops, rugged devices, POS, and digital signages, along with apps and content.

Scalefusion | Device & Endpoint Management Software

Enterprise IT: Is This What You Go Through?

You want to provision devices over the air to get started quickly

Deploying company policies on devices with diverse ownership models & device types

Managing app and content remotely for a large device inventory is cumbersome

Distributing business resources, apps & content on devices

You need to maintain data & device security at all times

Securing device and critical business data from misuse, unauthorized access & malware attacks

You are expected to monitor devices in real-time

Performing device-health & compliance checks to maintain device performance. Manually resolving device issues & compliance violations

You spend hours doing tasks manually

No automation based on data leads to manual IT tasks

You are tired of the complexity of the MDM platforms

Complex dashboard and MDM product with long learning cycles calls for high-skilled IT resources
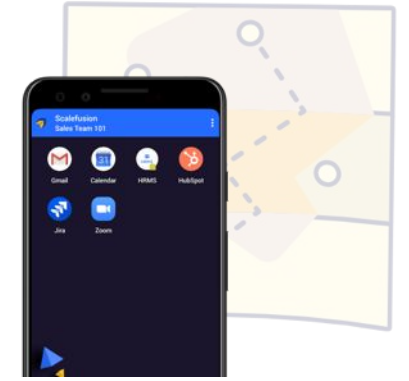

What Scalefusion Does for You

Simplified Deployment

- Enrollment using Email, Android Zero touch, Apple DEP, URL, QR code, Office 365.

- IMEI and serial number-based enrollment

- ROM enrollment

Enhanced Security

- Stringent policy application & DLP Policies

- Password enforcement

- Compliance violation tracking

- Enhanced policy control using Custom Payload

- Certificate Management

Advanced device Monitoring

- Real-time device location tracking

- Geofence-based alerts

- Data analytics to monitor device health, data and battery usage

What Scalefusion Does for You
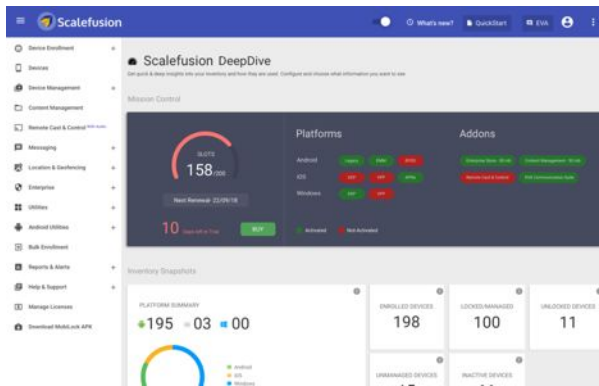

Increased Visibility with DeepDive

- Find all your device inventory information in one place

- View platform–wise device vitals and statistics

- Track compliance violations

Email and Exchange Management

- Configure and push email (POP/IMAP) settings

- Enable SMTP settings

Scalefusion | Device & Endpoint Management Software

Customer Story #1

With Scalefusion, Grab has successfully streamlined its mPOS management & driver device-fleet management through single console

Who?

A Singapore based ride-hailing transport services, food delivery and payment solutions provider wanted to manage mPOS systems & driver device fleet

Problem

- Managing & Securing mPOS

- Troubleshooting unattended devices

- Physical visits needed for resolving device issues

- Extending over the air support

- Excess data costs due to unrestricted browsing

- Tracking location of devices

Solution

- Outright mPOS management

- Remote Troubleshooting with RC

- Access to only pre-approved websites

- Location tracking & geofencing

Customer Story #2

Scalefusion's comprehensive solution aids AgVa Healthcare to manage Lenovo Tablets monitoring/controlling a ventilator

Who?

An Indian healthcare & medical equipment provider known for producing world's most economical ICU ventilator. Instrumental in extending affordable hardware for COVID-19

Problem

- Configuring tablets in kiosk mode
- Mass enrollment
- Private app distribution
- Remote hotspot configuration
- Curbing excess data usage
- Auto turn on-off
- Monitoring & troubleshooting

Solution

- Bulk device provisioning with custom scripts delivering 500+ tablets a day
- Single App Kiosk mode for AgVa App
- Silent app installation & updates
- Disabling hardware buttons
- OEM level integration for auto on-off & hotspot configuration
- Remote Cast + VoIP calling for support

Scalefusion | Device & Endpoint Management Software

Customer Story #3

BYJU'S
The Learning App

Scalefusion's comprehensive solution helps BYJU's to provision and manage tablets for distance learning

Who?

World's most-valued EdTech company with more than 15 million users providing Educational content along with devices for K-12 education and competitive examinations.

Problem

- Bulk provisioning
- App & website whitelisting
- Enabling device sharing
- Remotely updating Apps and OS
- Monitoring device usage
- Limited Parental controls
- Remote support

Solution

- Customized & dedicated Parent Portal
- Disable Play Store access
- Configure browser settings
- Prevent uninstall of BYJU's apps
- Block Factory Reset to avoid misuse
- Remote device monitoring & troubleshooting
